Emergent, Lovable.ai, and
similar AI models which makes
development more easy and
efficient.

PROJECTS

The Layer Co. | Full-Stack Fashion E-commerce Platform

GitHub : <https://github.com/nishant23042002/The-Layer-Co>

LiveDemo: <https://the-layer-co.vercel.app/>

- Built a premium full-stack fashion e-commerce platform inspired by H&M and Zara using Next.js, TypeScript, MongoDB, and Tailwind CSS.
- Developed secure authentication, product catalog, category management, cart, wishlist, responsive product pages, and Razorpay payment integration.
- Implemented an admin dashboard for product, category, inventory, order, and media management with Cloudinary image uploads.
- Optimized performance with modern React architecture, reusable components, API routes, and responsive UI for seamless shopping experience.

Aeterna Polo | Premium Fashion Landing Page

- **GitHub:** <https://github.com/nishant23042002/polo>
- **LiveDemo:** <https://polo-iota-six.vercel.app/>
- Built a premium fashion landing page using Next.js, TypeScript, Tailwind CSS, and Framer Motion with a modern editorial-style user experience.
- Developed responsive layouts, reusable UI components, animated interactions, and scalable project architecture optimized for desktop, tablet, and mobile devices.
- Designed a premium storefront foundation with product showcases, lookbook sections, testimonials, and scalable architecture for future e-commerce integration.

CERTIFICATIONS

Internshala Trainings | Full Stack Development | Jul 2025

- Completed a comprehensive 8-months program covering the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Built real-world projects including e-commerce website and Youtube-Clone.
- Gained hands-on experience in frontend (HTML, CSS, JavaScript, React), backend (Node.js, Express), and database management with MongoDB.
- Covered advanced topics like REST APIs, CRUD operations, JWT Authentication, and deployment.
