Authentication & Payments: JWT, Firebase Authentication, Razorpay

Cloud & Storage: Cloudinary, Firebase

Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Netlify, Railway, Render

AI-Augmented Development: OpenAI API, ChatGPT, Claude AI, Emergent, Cursor AI, Figma AI

PROJECTS

The Layer Co. — Full-Stack Fashion E-commerce Platform

Next.js, TypeScript, MongoDB, Tailwind CSS, Razorpay, Cloudinary

[GitHub](#) | [Live Demo](#)

- Built a premium full-stack fashion e-commerce platform inspired by H&M and Zara, covering product catalog, category management, cart, wishlist, and responsive product pages.
- Implemented secure authentication and integrated Razorpay payment processing for end-to-end checkout.
- Developed an admin dashboard for product, category, inventory, order, and media management with Cloudinary-based image uploads.
- Optimized performance using a modern React architecture, reusable components, and API routes for a seamless shopping experience.

Aeterna Polo — Premium Fashion Landing Page

Next.js, TypeScript, Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Built a premium fashion landing page with a modern, editorial-style user experience.
- Developed responsive layouts, reusable UI components, and animated interactions optimized for desktop, tablet, and mobile devices.
- Designed a scalable storefront foundation with product showcases, lookbook sections, and testimonials to support future e-commerce integration.

EDUCATION

Bachelor of Computer Science — Mumbai University

2020 – 2023

Anandibai Pradhan Science College, Nagothane, Roha | CGPA: 7.51 / 10

CERTIFICATIONS

- Full Stack Development (MERN) — Internshala Trainings (2025)
- Responsive Web Design Certification
